

## IS ASKED TO FORM VIGILANCE CORPS

Mayor Bebout Receives Request  
From Chairman of Board of  
American Defense Society

### ORGANIZATION IS OUTLINED

Classification of All Citizens as Re-  
gards Their Loyalty is Urged  
by Society

Mayor C. L. Bebout today made public a request received from Richard M. Hurd, Chairman of the Board of Trustees of the American Defense Society, urging citizens here to organize a vigilance corps, for the purpose of aiding the Government in putting an end to German propaganda and enemy activity which has been responsible for fires, ammunition plant explosions, sabotage, food scares and other attempts to damage the morale of the American people.

"Recent events in this country make it plain that the German method of propaganda which has been so effective in Russia and Italy is now being attempted in this country with an alarming degree of success," according to the appeal to Americans now being issued by the American Defense Society. "German propaganda has long been supplied to our troops in the national encampments. The ship-building program is being interfered with by German-inspired strikes. Germans are directing the hoarding of food supplies to an extent that panics have already been prevalent in the leading cities. Newspapers are giving daily reports of fires in ammunition plants and grain depots and the country is now on the verge of an even greater calamity in the shape of a railroad strike of unprecedented extent which threatens to cripple our national industry."

The far-reaching need of the local Vigilance Corps can readily be seen when it is known that in this country, alone there are today several million alien enemies representing Germany, Austria, Bulgaria, Turkey and other countries sympathetic or allied with the Prussian autocracy. Almost without exception these enemies are free to go about as they see fit, and while the Government has done much toward tightening censorship of mails and cables, nevertheless there are numberless channels by which these enemies are in touch with the directing genius of German propaganda in Berlin.

The plan of organization undertaken by the Society and recommended to loyal Americans provides for the enrollment of a small American Vigilance Corps in every city and town which shall classify all residents under the following terms.

1. Loyal.
  2. Disloyal.
  3. Doubtful.
  4. Unknown.
- Following the general classification of citizens the Committee is urged to make further designation of the following list:

1. Alien enemy.
2. Pro-German.
3. Anti-Government.

In the letter of instructions to branch organizations the Executive Committee of the American Defense Society gives the following directions:

"At the earliest possible moment when you have made your classification of alien enemies, pro-Germans, and those opposed to the Government in this war, send this list to the Police Department, the local representative of the Department of Justice and to whatever representatives of the army or navy intelligence bureaus there are in your community. Do not let this matter rest, however, with this first classification of the enemies. Too much stress cannot be put on the

## PETITION IS FORWARDED

Urges Passage of Purple Cross Bill  
—Signed by About 500

A petition urging the passage of the Purple Cross bill pending before congress, bearing the signatures of between 400 and 500 Rush county people, was forwarded to Washington today so that it might be presented at the opening of congress Monday. The bill provides for the embalming of dead soldier bodies by a new process so that they may be shipped home for burial.

## SUM OF \$85 DONATED TO ARMENIAN RELIEF

This is Expected to be Increased by  
Monday When Other Churches  
in County Report

### CONTRIBUTE TO MINISTERS

The collection of eighty-five dollars taken for the Armenian-Syrian relief fund yesterday morning at the Thanksgiving service at the First Baptist church was regarded as excellent considering the size of the audience. Churches all over the county also took contributions for this worthy cause and the returns from these have not been received by the Rushville ministerial association which has charge of the raising of the fund.

The amount will not be sent in to headquarters until Monday so that persons who were not at the service yesterday will have an opportunity to donate to the cause. The money may be given to the Rev. D. Ira Lambert, president of the ministerial association or any minister and it will be turned into the fund.

Because of the crying need for this money in Armenia and Syria, the ministers are hoping that within the next few days Rush county's fund will climb higher. No one will be solicited for contributions, but everyone is urged to make a contribution to some minister in the county. The county churches are asked to report to Dr. Lambert as to how much money they have raised and either send the money to the fund in this county or send the contributions direct to headquarters in New York.

## BOY ACCIDENTALLY SHOT BY BROTHER

Vernon Hardwick, 12, Son of Eli  
Hardwick, Will Recover From  
Hunting Accident.

### 60 SHOT PENETRATE LEGS

Vernon Hardwick, age twelve years, son of Mr. and Mrs. Eli Hardwick of Richland township, was accidentally shot yesterday while on a hunting trip by his brother, Dallas Hardwick, age nineteen, but will recover. The full charge of one shotgun shell penetrated both legs below the knee, about sixty small shot entering the calf of his left leg and a few his right leg.

Vernon and Dallas, together with another brother, William, age seventeen, were hunting on Ben Staples farm in Richland township. Dallas let both barrels of the shotgun go at a rabbit and Vernon ran ahead to see if he had killed it. Dallas was in the act of reloading the gun when the plunger caught and one shell was accidentally discharged. Vernon fell over as if he had been killed. His two brothers carried him over a mile before aid was reached. Young Hardwick was then taken to Dr. Kennedy's office in Milroy and the shot removed. The shot drove particles of his underwear and stockings into the wound and aggravated it. Clifford Hardwick of the Peoples National bank is a brother.

## ONLY FIRST STEP TO CONSERVE COAL

Recommendations of Church Com-  
mittee Forecasts What Future  
May Hold in Store

### EARLY CLOSING IS POSSIBLE

Fuel Administration Has Ample  
Power to Take Necessary  
Steps to Save Fuel

The statement by a committee representing the official boards of the protestant churches of Rushville urging that the public not call on the churches to open the houses of worship any more than is absolutely necessary, is but the first step in the direction of coal conservation which may be necessary this winter if the shortage becomes acute.

The fuel administration has made it plain from the beginning that if any drastic action is necessary to make the supply sufficient to meet the domestic demand, it will be taken. Already the federal fuel administration has issued an order providing that no electric street signs shall be operated except between the hours of 7:45 p. m. and 11:30 p. m. The order does not restrict in any way the use of electricity for interior lighting or for street lighting by municipalities.

That the situation has been sensed here is disclosed by the fact that early closing of stores which ordinarily remain open after six o'clock has been discussed and that the proprietors in line of business which is open until ten o'clock each night have consulted among themselves regarding the advisability of closing at eight o'clock. A majority of the stores here close at six o'clock during the winter months and not a great number of business houses would be affected should an early closing order be promulgated. Such an order during the winter, if the situation demands it, is not without pale of probability, because the fuel administration has ample power from the federal law creating it to take whatever steps that are necessary to compel early closing as a coal conservation measure.

Oil lamps in place of gas and electricity, wood in place of coal for heating and cooking, early closing of stores, the closing off of extra rooms in homes, and the abandonment of the brilliant lighting effects heretofore used in store windows are among the measures already being taken in Lebanon and other Boone county cities and towns under direction of C. F. S. Neal, county Fuel Director and the County Council of Defense, working with the Lebanon Business Men's association and other organizations.

At Lebanon the business men have put a committee on the job of enforcing the conservation plans of the Fuel Administration, and a police alarm system is to be put in to make things safe when darkness falls. Lebanon business men have pledged themselves to help save fuel.

Fuel Director Neal, in furtherance of the campaign to substitute wood for coal, has cut down the Carolina poplars in front of his several rental properties. He says the coal shortage offers a real opportunity to rid all Indiana communities of the Carolina poplar pest while at the same time meeting the fuel crisis effectively.

At Columbus, Ind., and in Bartholomew county, M. O. Reeves, the fuel director, is getting the cooperation of business men for a general movement to close the stores at 6 p. m. to save fuel. It has been suggested that the saloon men be asked to close their places at 8 o'clock in the evening.

## FINDS FOR DEFENSE ON FIRST BALLOT

Jury Returns Verdict For Lafayette  
Conwell of Connersville Who Was  
Sued by Saloon Keeper.

### MONEY ALLEGED DUE ON LOAN

Trial of Carl Vandiver on Charge of  
Involuntary Manslaughter Set  
For Today Postponed.

On the first ballot a jury in the circuit court today found for the defendant in the case of Thompson F. Thomas, an Indianapolis saloon keeper and former resident of Connersville against Lafayette Conwell, an architect of Connersville, for money had and received. The case came here on change of venue.

The case of the state against Carl Vandiver, accused in a grand jury indictment with involuntary manslaughter, did not come to trial today as planned, it having been discontinued on account of the illness of Jack Ross of Andersonville, who was employed to assist the prosecution. The indictment was the outgrowth of an accident last June when an automobile driven by Vandiver ran into Carl Swinford's buggy and killed his baby.

The jury got rid of the case tried this morning in very short order. The hearing was concluded just before the noon intermission and after dinner the jury took one ballot, all voting for the defendant.

Thomas, who was formerly a furniture dealer of Connersville and later in saloon business before moving to Indianapolis, sued Conwell for money he alleged he had advanced to Conwell as loans. Conwell testified Thomas had never given him more than \$5 at a time. Conwell also testified to an incident when he went to Indianapolis to see the automobile races. He said he visited Thomas' place and went to bed above the saloon. By the time he "came to," he said the races were over and most of his money was gone.

The jury hearing the case was composed of Ben F. McFarlan, J. J. Morrison, Frank Megee, C. W. Hinkle, Otis Miller, Charles Davis, J. W. Anderson, W. A. Caldwell, Fred Cameron, J. A. Jones, Alonzo Dalrymple and John F. Mapes.

A change of venue was granted today in the case of R. Herschel Manufacturing company against James Irvine, Sr., and James Irvine, Jr., on an account for \$250.

The claim of William E. Wallace as trustee of the First Presbyterian church against R. G. Budd as administrator of Jesse T. Winship's estate was dismissed and the costs paid.

Judgment was rendered against Harry and Willard Colter today for \$79.55 and costs in favor of J. W. Anderson as trustee of Thomas E. Bottorff in bankruptcy.

## REVENUE STAMPS ARRIVE

May be Bought at Postoffice—Law  
Effective Tomorrow

The supply of revenue stamps, which will be on sale starting tomorrow at the banks and postoffice, has been received at the postoffice. The only way in which the new revenue stamp law effects the postoffice is in the mailing of parcel post packages. On these there is a one cent revenue stamp due for every twenty-five cents on postage or any amount between twenty-five and fifty, fifty and seventy-five and so forth. A number of banking documents will be affected and require revenue stamps of different values.

The other member of the board is Dr. J. C. Sexton. Word has been sent to the government of the election and that the board is awaiting further instructions.

## HAS SOMETHING TO BE THANKFUL FOR

Derb Green Loses \$600 by Fire  
Thanksgiving Day But Chem-  
ical Truck Saves Barn

### MILK WAGON IS ALL HE SAVED

Though Derby Green suffered a loss of \$600 from fire Thanksgiving day when the milk house on his farm just east of Rushville on the Fort Wayne road burned, he had something to be thankful for. His gratitude was expressed today for the work done by the chemical truck recently purchased by the city because that truck alone prevented his barn from burning and thus causing a further loss of at least \$4,000.

The milk house caught fire yesterday afternoon about one o'clock, probably from one of the two stoves in the house, both of which were burning. A man employed on the farm was returning from dinner when he saw smoke curling from the milk house and when he reached the place, it was in flames and could not be saved. Five hundred milk bottles, a bottling machine, a bottle washer and an ice box valued at \$100 were destroyed. A milk wagon was the only thing saved.

The chemical truck arrived soon after the fire was discovered and put out the fire on the roof of the barn by throwing chemicals seventy feet in the air. There were 40 tons of hay in the barn which had caught fire.

## RAINBOW DIVISION IS NOW IN FRANCE

National Guardsmen Representing  
Every State in Union Soon Be-  
come Acclimated

### THEY ARRIVED WEEKS AGO

(By United Press.)

American Army Field Headquarters, Nov. 30.—The American National Guard unit representing every state in the union is now in France. They arrived weeks ago, but not until today was the fact permitted to be announced.

The new Sammies received a hearty welcome by the French. The occasion of the arrival will be a memorable one. In twenty-four hours the members of the guard were at home and on a most friendly relation with the Tommies. The First National Guardsmen after arriving have made enormous progress in their training. General Pershing has already made an inspection of the Guard.

This unit is known as the Rainbow Division and is commanded by General Mann.

## MAKING A SECOND BELGIUM OF ITALY

Austro-Germans Place Women and  
Children in First Line Trenches  
as Shields

### LEVY ENORMOUS WAR TAXES

New Battle Ground Develops in  
Cambrai Region, But Germans  
Make no Progress

(By United Press.)

Washington, Nov. 30.—Austro-German troops are making a second Belgium out of invaded Italy, Rome cables declared today. Near Venson the Germans placed women and children in their first line trenches as shields against the Italian fire. Hundreds of these innocent victims were sacrificed, said the messages reaching here. In one region the Germans have levied the same exorbitant war taxes as in northern France and Belgium. Labor is being conscripted.

While Austro-German agents spread stories of benevolent treatment to the Italian villages, Austro-German soldiers are commendeering every movable object of value in Italy.

Along the Piave river front the Italian soldiers report that the terrified screams of women in Austro-German hands make the nights hideous.

By WILLIAM PHILIP SIMMS  
(U. P. Staff Correspondent.)

With the British Armies in France, Nov. 30.—A new battle ground in the Cambrai region developed today. On the extreme southern flank the Germans early this morning opened a violent attack.

They have apparently been unable to make headway. Prisoners taken declare they have been practically without sleep since Nov. 20 and their haggard appearance and exhaustion bear out this statement.

German officers, they declare, are fearful the British wedge at Bourlon will force a withdrawal south of the Farte.

Aviators reported evidences that the enemy is destroying Cambrai and other nearby towns.

British troops have made a slight advance west of Bourlon wood, one of the important defenses of Cambrai. First admission that General Byng's artillery is dropping shells in the town of Cambrai was contained in official dispatches from Berlin yesterday. Observations previously made by allied aviators have led to the belief that the railroad center has been evacuated by the civilian population and is no longer of value to the Germans as a base.

That the Italians defending the plains of northern Italy are more than holding their own is indicated by the official communication from Berlin, which recounts the repulse of Italian attacks against positions west of the Brenta and west of the Piave.

## Low First Cost—Lower Upkeep

WE REO FOLK seldom talk price, save incidentally.

FOR THE REO PRODUCT is not designed nor made on a price basis.

WE NEVER HAVE succumbed to the temptation to meet a price competition or to build a car to come within a pre-determined figure.

OUR AMBITION has been to build the best—not the most—then set the lowest price possible, based on actual cost plus a small margin of profit.

NEVERTHELESS, it is a fact that this 1500 pound Reo is one of the lowest priced, high speed trucks on the market. Quality and equipment considered, it is the cheapest.

IN FACT YOU'LL HAVE TO PAY on the average, \$400 more, to obtain a 3/4-ton, manufactured, truck of any reputation or that presumes to compete with the Reo.

WE ARE ENABLED to produce this quality truck and to sell it lower, because of the fact that it has been standard for longer; because of our superior manufacturing facilities; and finally because of our low selling cost.

THE OVER DEMAND for Reos that always has existed, results in a selling cost so low, it is the marvel and the envy of the industry.

AND THIS TRUCK IS a manufactured product—not assembled from unrelated units. IT IS REO MADE THROUGHOUT, which is to say, it represents the best in materials and workmanship.

50 PER CENT OVERSIZE in all vital parts—the Reo standard factor of safety—in axles, gears, driving shafts, bearings, frame, etc., is your guarantee of stability and dependability.

AND, FIRST COST ASIDE, we affirm there is no other 3/4-ton truck on earth that can show such low upkeep and operation cost year in and year out.

READ THAT AGAIN—it's a broad statement. Yet we believe it to be literally true else we would not sign the Reo name to it.

FACTORY CAPACITY is the only limit to the output of the Reo models—for the demand is, and always has been, vastly greater than the supply.

BUT OUR PLAN has been to make, not the most, but the best, and so we never make any more than we can make and make every Reo good.

SO THE ONLY WAY to be sure of a 3/4-ton Reo for reasonably early delivery, of present quality and at present price, is to place your order now. Delay is dangerous.

### Stronger Men Take the Lead

They Have Nerves of Iron and Real Red Fighting Blood

Vital force is the material from which leaders in all walks of life are made, it is well worth getting and holding.

The health and nerve of the athlete is what Nature intended every man and woman to have.

The blood of an athlete is pure and red, a strong heart pumps and drives it through his body. No wonder that every inch of his system is filled with energy and health, his nerves like iron, spirits high, hard tasks a pleasure and life one song of joy.

A leading Doctor says, "Everyone should feel this way. That if you are not red blooded, are nervous, all run down and on your last legs, for you to build up your blood and nerves with exercise, fresh air, nourishing food and Nature's great prescription Phosphated Iron a real blood and nerve builder."

Then you will be there with vim and push to easily do the work that you now do on your nerves alone.

He also says: "Phosphated Iron feeds the blood cells with iron and Nerve force, and that leading specialists are now using it successfully all over the country, that it has sprung into almost instant popularity with the better class of doctors as one of the few remedies they can depend on to produce results."

Special Notice—To insure physicians and their patients getting the genuine Phosphated Iron we put up in capsules only, so do not allow dealers to substitute any pills or tablets, insist on the genuine in capsules only. PITMAN & WILSON and leading Druggists Everywhere. Rushville, Ind.—(Adv.)

—Miss Harriet Smith of Indiana university at Bloomington is home to spend the week-end with her parents, Dr. and Mrs. Frank Smith.

—The Misses Ruth Innis and Mary Jane Carr and Simeon Stewart and Lawrence Clark motored to Indianapolis yesterday afternoon.

—The Misses Margaret and Kathryn Fay of Muncie are the guests of Mrs. John Kinsley of North Perkins street for several days.

—Miss Helen Scott and Miss Genevieve Brown of Winamac who have been the guests of the Misses Mary Sleeth and Henrietta Coleman, left this afternoon for Indianapolis and after a short visit there will return to their home. The trip was made in their machine.

### KENTUCKY MAN AT HEAD OF STATE GUARD

Gen Rodger Williams Assumes Command of Indiana Troops at Camp Shelby Today.

#### KEEN DISAPPOINTMENT FELT

Hattiesburg, Miss., Nov. 30.—General Rodgers D. Williams of Kentucky, has received orders from the war department to assume command of the Indiana brigade at Camp Shelby and this morning at 8 o'clock he became the commanding officer of the Indiana troops.

There is still a chance, however, for either Harry B. Smith, adjutant-general of Indiana, or Colonel Thomas B. Coulter, commanding officer of the 152d infantry. Although the assignment of General Williams is permanent, the war department could appoint General Smith or promote Colonel Coulter and assign General Williams elsewhere. This is only a possibility, not a probability.

The disappointment is keen that an Indiana man is not at the head of the Indiana troops.

### RUSSIAN FACTIONS REACH AGREEMENT

Workmen's and Soldiers' Committee and Others Hold Session in Petrograd.

#### UNITED MEETING REPORTED

London, Nov. 30.—A Russian communication received here by wireless announces a union between the all-Russian central executive committee of the council of workmen's and soldiers' delegates with the executive committee elected by the all-Russian peasants' congress.

At a united meeting of these bodies and the Petrograd council of workmen's and soldiers' delegates a unanimous agreement was reached as to laws concerning land and peace and to the law vesting control in the hands of the workmen.

The new government will consist of a ministry representing all political factions which will be responsible to a parliament composed of 108 members of the workmen and soldiers and an equal number of the peasant congress and 100 delegates from the trade unions.

**Age Limit of Airmen.**

Brigadier General George O. Squier, chief of the signal corps, U. S. A., in his recent call for volunteers to serve in the great air fleet that is building stated, "The preferable age for all applicants is from twenty-five to thirty-five." "Wishing to know the age limits fixed for men serving in the British and French flying corps, the New York World wired its correspondent in London. He answered:

The minimum age in the British flying corps is eighteen. The average age is about twenty-three. There is no maximum age, but in practice a man more than thirty years old is not taken in the flying corps unless he is exceptionally qualified for that service. Many officers are still in the corps who joined when it was formed in 1912, and it contains civil and professional aviators over thirty who joined after the war began. But the average age of the officers now actually flying is twenty-three.

The age limit of the French aviation service is from eighteen to thirty.

—Robert Humes has returned to Camp Taylor after a week's furlough in this city when he visited his parents, Mr. and Mrs. O. E. Humes.

—Mr. and Mrs. Edwin Lee and son of Indianapolis were the guests of Mr. and Mrs. E. B. Thomas at their home in North Morgan street yesterday.

### ASKS IF CITY HAS AN EXPLOSIVES STATUTE

Director of Bureau of Mines Wants to Authorize Licensing Agent if There is One

#### COUNTY ALREADY HAS AGENT

Mayor C. L. Behout is in receipt of a letter from V. H. Manning, director of the bureau of mines of the United States department of the interior, which has in charge the enforcement of the new federal law regulating the use of explosives, asking him to advise the bureau at once whether Rushville has a city ordinance to require a license to purchase, manufacture, sell or use explosives. This information is desired so that the bureau, according to the letter, may designate the office authorizing to issue licenses under the federal statute.

The city has no such ordinance and therefore no such officer and it is not regarded as necessary to reply to the communication since the clerk of the circuit court, George Moore, Jr., has been designated as the licensing officer for the county under the explosives act. The letter is a form communication and probably is applicable in larger cities.

—Mrs. Lula Weeks and George Reed saw "Have a Heart" in Indianapolis yesterday afternoon.

—Mrs. E. I. Wooden is in Indianapolis visiting Mr. and Mrs. Albert Birstor. Dr. Wooden, who also spent Thanksgiving in Indianapolis, has returned to this city.

—Miss Sarah Koenig of Knoxville, Iowa, accompanied Miss Marie Clark who is attending Nashville College at Nashville, Tenn., home for a week-end visit with Mr. and Mrs. C. G. Clark.

—Mr. and Mrs. Walter Hubbard and sons, Ward and Fred, Mr. and Mrs. Carl Gunning and son, John, Miss Beatrice Reeves and Will Carter motored to Indianapolis yesterday and saw "Have a Heart."

## HOOSIER KITCHEN CABINETS

Hinged Door "Hoosier Wonder" Advertised in leading Magazines

Although the prices of nearly everything has gone up since the war, it is a remarkable fact that the price of the famous Hoosier Beauty remains exactly the same.

It is the only kitchen cabinet we know of on the market today that has not been advanced \$2.00 or \$3.00.

The reason for this is that there are more Hoosiers made than any other five makes combined. Hoosier production is larger and buying facilities greater. With the exception of the slight rise in price of one or two of the lower priced cabinets, all prices are exactly the same as usual.

That is why it is hard for you to get Hoosier Cabinets—last spring and summer hundreds of women waited months to get the popular Hoosier models.

Whether you intend to buy now or later, come and see the labor saving cabinets.

SPECIAL LOW PRICES —\$21, \$26, \$31, and \$35.

They are sure to be higher.

Rushville, Like Every City and Town in the Union, Receives It

People with kidney ills want to be cured. When one suffers the tortures of an aching back, relief is eagerly sought for. There are many remedies today that relieve, but do not cure. Doan's Kidney Pills have brought lasting results to thousands. Here is Rushville evidence of their merit.

Frank McFarland, 830 W. 10th St., says: "My kidneys began to get weak and in a short time I was so bad off I could hardly get about. My back was in terrible shape. It ached so, especially at night, I could hardly sleep. Mornings, my back was so stiff when I bent over I could hardly straighten up again. The kidney secretions were too frequent in passage and highly colored. Another of the family had used Doan's Kidney Pills with such good success I thought I would try them, so I got a box at Johnson's Drug Store. They helped me right away and I kept on using them until I was cured."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. McFarland had. Foster-Milburn Co., Mfrs., Buffalo, N. Y. —(Adv.)

### Soldiers Do Nothing By Halves

The American soldier does not believe in doing things by halves. He uses the full unit in giving expression to his practical patriotism. He not only stands willing to support the flag in its glorious onward march to world liberty and freedom, laying down his life if necessary, but he stands willing to aid the government by lending liberally of his money. What he did in connection with the second Liberty Loan should serve as an inspiration to the entire nation.

Subscriptions to the second Liberty Loan from the military establishment of the United States reached the gigantic total of \$89,903,300. The American army had a per capita subscription of \$76.86, representing an average subscription of \$113.25 and nearly 70 per cent of the army subscribed.

The American expeditionary forces in France subscribed \$5,661,850. Troops in Hawaii rolled up \$1,269,150; those in Panama, \$1,113,600 and those in the Philippines and China \$358,550.

The thirty-one cantonment camps in the nation subscribed for \$43,080,500 of the war bonds. The sixteen National Army camps subscribed for \$23,740,900, the fifteen National Guard camps taking \$19,339,600 of the securities. Twenty-five of the thirty-one cantonment camps went over the \$1,000,000 mark and eleven of them subscribed individually for more than \$1,500,000. The National Army camps had a per capita subscription of \$58.36. Camp Meade, at Admiral, Maryland, led the National Army with a per capita subscription of \$89.36. Camp Cody, at Deming, New Mexico, led the National Guard with a per capita subscription of \$96.56.

The North Pacific Coast Artillery district, with headquarters at Seattle, Washington, reported a total subscription of \$454,650 from 4,063 subscribers of a total strength of 4,718 men.

In the latter part of the bond campaign, officers and enlisted men were detailed wherever practicable, to co-operate with local Liberty Loan organizations. A typical sample of the results was shown in the telegraphic report from Camp Lee, the National Army cantonment at Petersburg, Virginia, to the effect that through the efforts of officers and enlisted men of that camp, bond subscriptions amounting to \$14,532,450 were obtained from persons residing outside of Camp Lee.

This amazing showing by the men in arms should bring home with compelling force a lesson in practical patriotism to all persons who are not called to the army. The next Liberty Loan will determine the extent to which this lesson carries.

### Germany's Losses

With the declaration of Brazil of a state of war between that country and Germany, the latter can now count eighteen enemy nations arrayed against her.

Germany's losses in men and money, while they must be enormous, are in reality the least of the

disasters that have befallen her. The one great disaster that that misguided country has brought upon herself, and which will have most far-reaching effect, is the loss of her standing with the nations of the world. With the exception of the countries leagued with her in this unholy war, Germany is an outcast among the nations of the earth.

Germany is not feeling the blighting effects of this ostracism now as she will feel it in the years to come. She claims that her policy of frightfulness is a necessary measure of self-defense, yet this same policy has alienated numbers of nations that but for that inhuman course would today be, if not her avowed friends, at least strictly neutral.

Peace will come after a while, and in the reckoning Germany's course will be laid bare before a just and discriminating world. We say "just and discriminating," because we believe, despite Germany's frightful defection from national humanity and honor, the large majority of the peoples of the earth are at heart humane and honorable. And the latent principles of humanity and justice that underlie and form the bed-rock foundations of all civilized nations, have revolted and will continue to revolt against the savagery displayed by that would-be fount of "kultur."

This antipathy will take the form of a prejudice against not only Germany as a nation, but against the German blood. Not all the peoples of the earth have the finely discriminating judgment of President Wilson, and not all of them will be able to separate the acts of the German government from the impulses of the German people.

It is a common thing to hear, even in charity-loving America, references to "German brutality" and "German savagery." It is of no avail to tell the people that this brutality and savagery is the result of a "system" and that in reality the German people as whole do not countenance it. Human nature is prone to believe that actions speak louder than words, and Germany's actions will form the complainant's evidence when Germany comes to trial before the people of the earth.

The world should reserve its criticism of Kerensky and the Russian republic. Democracies are not born in a day, neither is the character of a people changed over night. While the pains of a new birth have temporarily impaired her fighting power, given a little time to adjust herself to the new conditions, Russia will yet give a good account of herself. Especially should we of the United States withhold censure, permitting, as we do, obstructionists and trouble makers to stalk unmolested throughout the land. We might criticize with a better grace if we would fill some prison cells for whom they have long been waiting.

The German bed will be a bed of thorns for generations to come.

### The War Garden—Coffee Bean

THE COFFEE BEAN IS A DISTANT RELATIVE OF THE LIMA, BOSTON, STRING, BAKED AND OTHER BEANS. HOW FAR DISTANT NOBODY REALLY KNOWS, BUT IT MUST BE AT LEAST 250 MILES.

COFFEE WAS FIRST FOUND IN ABBYSSINIA ON THE SIDE OF A HILL BY A MOHAMMEDAN PRIEST WHO TOOK IT HOME AND PLANTED IT IN A COFFEE POT.

A TURKISH RULER OF THE 15TH CENTURY WAS INVITED TO A COFFEE CLOTH BY SEVERAL FRIENDS, AND AFTER DRINKING A CUPFUL, HE SAID THAT THE COFFEE WAS IN SUIT. HE CLAIMED IT WAS BOOZE AND HE PROHIBITED ITS USE.

EVERYBODY SHOULD HAVE COFFEE IN THEIR HOUSE. COFFEE IS THE LIFE OF THE NATION. COFFEE IS THE LIFE OF THE NATION.

## LOWER IS GOING TO FRANCE

Y. M. C. A. Secretary Who Spoke Here Will be Sent Abroad

Correspondence from Camp Shelby, Miss., today says that E. A. Lower of Indianapolis, Y. M. C. A. secretary who spoke at several points in Rush county during the recent Y. M. C. A. war fund campaign, has been assigned to France for work at the battle front. T. H. Hanna of Bloomington, Ind., who has also been on duty at Camp Shelby, is another who is to go to France. Mr. Hanna was formerly United Presbyterian church pastor at Bloomington and has many friends in this county.

## CURTAIN RAISER AT 7:30

Will Precede Game Between Rushville and Shelbyville Tonight

The curtain raiser to the Rushville-Shelbyville high school basketball game will start promptly at 7:30 o'clock at the Graham Annex gym tonight. It will be played between the second team of the Rushville high school and the Milroy high school. The largest crowd of the season is expected out to see the Rushville and Shelbyville quintets scrap out because the rivalry between the two schools is intense.

## MILK PRICES ADVANCE

Dealers Announce Increase of One and Quarter Cents a Pint

Old Mr. High Cost of Living, who is no longer a stranger, came knocking at the door today and said that he was going to take another extra toll for a commodity used by everyone. This time it is milk. Dealers advertised today that on and after tomorrow, Dec. 1, they would charge six and a quarter cents a pint and twelve and a half cents a quart for milk. The present price is at the rate of five cents a pint.

Little Aileen Dice, daughter of Mr. and Mrs. Frank Dice of Glenwood, won the diamond ring as being the most popular baby in the contest given by Professor Rickin. Mrs. Ethel Myers won the ladies diamond ring as being the most popular lady. Mrs. Emma Timberman won the gold lavalier in the sewing contest.

## KEEP LOOKING YOUNG

It's Easy—If You Know Dr. Edwards' Olive Tablets

The secret of keeping young is to feel young—to do this you must watch your liver and bowels—there's no need of having a sallow complexion—dark rings under your eyes—pimples—a bilious look in your face—dull eyes with no sparkle. Your doctor will tell you ninety per cent of all sickness comes from inactive bowels and liver. Dr. Edwards, a well-known physician in Ohio, perfected a vegetable compound mixed with olive oil to act on the liver and bowels, which he gave to his patients for years. Dr. Edwards' Olive Tablets, the substitute for calomel, are gentle in their action yet always effective. They bring about that exuberance of spirit, that natural buoyancy which should be enjoyed by everyone, by toning up the liver and clearing the system of impurities. You will know Dr. Edwards' Olive Tablets by their olive color. 10c and 25c per box. All druggists.

Mr. and Mrs. Merrill Ball entertained at dinner yesterday Mr. and Mrs. Chase Cross of near the city.

The Misses Elorene and Elizabeth Gronier entertained a few girls with

a pitch-in dinner yesterday at their home in North Main street. The guests were the Misses Zora Carney, Ruth Spivey and Marjory and Harriet Smith.

## NATURA

IS THE MEDICINE THEY ALL PRAISE

They can't help praising it, as it produces the results desired.

Natura Treats the Cause—It's Nature's Way.

Mrs. Hannah M. Smith, 653 E. South St., Frankfort, Ind., is nearer free from rheumatism than she has been for thirty years since she has been using NATURA.

Gentlemen—I have been afflicted with running catarrh for the past forty years. I would take cold easily and I had a cold most of the time. I also had a severe case of stomach trouble and was very nervous; my kidneys were also affected badly. I have been a sufferer from rheumatism for the past thirty years. NATURA was recommended to me as a dependable remedy for catarrh and I began to use it with the best of results. I now have been using it for about two months; my stomach is in fine shape; my nerves are stronger; I am sleeping and resting much better and I am nearer free from rheumatism than I have been in the thirty years. I have purchased six more bottles.

NATURA can be obtained through all reliable druggists, but always found at the following progressive dealers in and around Rushville, Ind.: F. E. Wolcott, Hargrove & Mullin, Pitman & Wilson, Rushville, Ind.; Mrs. Stella Davis, Arlington, Ind.; Handy's Drug Store, Mays, Ind.; Grace Drug Store, Milroy, Ind.

### THE PEASANT'S RIDDLE.

And How the Sicilian kept the Promise He Made to the King.

A Sicilian laborer told us this story. He says his mother told it to him when he was a child. It sounds like one of Grimm's tales and is undoubtedly very old folk lore:

"My mother told me that once there was a king who saw a peasant working in a field and asked him how much he earned. And the peasant said, 'Four carlini a day.' 'What do you do with your 4 carlini?' asked the king. 'One I eat, the second I put at interest, the third I return, and the fourth I throw away.' This puzzled the king, and he asked the peasant what he meant. And the peasant said:

"I buy my food with one. I feed my children with the second, and that is putting money out at interest. I feed my old father with the third, and that is paying back what has been given me. I give the fourth to my wife, and giving her money is throwing it away."

"That's a good riddle," said the king, "and I must tell it to my friends. Promise me that you won't tell me the answer till you have seen my face a hundred times." So the peasant promised, and the king went back to his palace and asked them the riddle. Nobody could answer, but one remembered seeing the king talk to a peasant, so he went to the peasant and asked him about it. But the peasant said: 'I can't tell you. I promised the king I wouldn't tell the answer till I had seen his face a hundred times.' 'Oh, that's easy!' said the king's friend, and he took a hundred lire out of his pocket, and every piece of money had the king's face stamped on it.

"So the peasant told the king's friend the answer to the riddle, and the king's friend went back to the palace and said to the king: 'I can guess your riddle now,' and he did. Then the king became angry and said: 'You couldn't have guessed it. That peasant has broken his promise!' So the friend had to tell the king how he had fooled the peasant."—Cleveland Plain Dealer.

### WORTH WHILE.

It is easy enough to be pleasant  
When life flows by like a song.  
But the man worth while is one  
Who will smile  
When everything goes wrong.  
For the test of the heart is trouble,  
And it always comes with the  
years,  
And the smile that is worth the  
praises of earth  
Is the smile that shines through  
tears.  
It is easy enough to be prudent  
When nothing tempts you to  
stray,  
When without or within no voice of  
sin  
Is luring your soul away.  
But it's only a negative virtue  
Until it is tried by fire,  
And the life that is worth the honor  
of earth  
Is the one that resists desire.  
By the cynic, the sad, the fallen,  
Who had no strength for the  
strife,  
The world's highway is cumbered  
today.  
They make up the item of life.  
But the virtue that conquers passion  
And the sorrow that hides the  
smile—  
It is these that are worth the homage  
of earth,  
For we find them but once in  
awhile.  
—Ella Wheeler Wilcox.

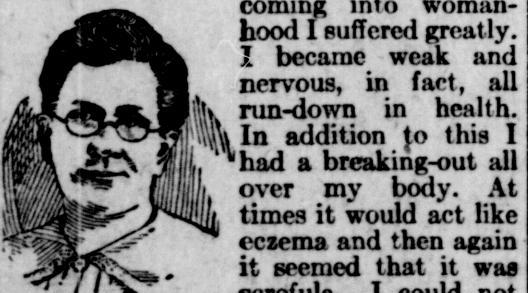

### Uric Acid Poisoning!

The most eminent physicians recognize that uric acid stored up in the system is the cause of rheumatism, that this uric acid poison is present in the joints, muscles, or nerves. By experimenting and analysis at the Invalids' Hotel and Surgical Institute in Buffalo, N. Y., Dr. Pierce discovered a combination of native remedies that he called Anuric—which drives out the uric acid from the system, and in this way the pain, swelling and inflammation subside. If you are a sufferer from rheumatism, backache, pains here or there, you can obtain Anuric at any drug store and get relief from the pain and ills brought about by uric acid; or send Dr. Pierce 10c. for trial pkg. Anuric which you will find many times more potent than lithia and eliminates uric acid almost as hot water melts sugar. A short trial will convince you.

Anuric is a regular insurance and lifesaver for all big meat eaters and those who deposit lime-salts in their joints.

OLD-TIME REMEDY MAKES BLOOD PURE.

Elkhart, Ind.—"When I was a girl just coming into womanhood I suffered greatly. I became weak and nervous, in fact, all run-down in health. In addition to this I had a breaking-out all over my body. At times it would look like eczema and then again it seemed that it was scrofula. I could not get anything that did me any good until my mother began giving me Dr. Pierce's Favorite Prescription and his Golden Medical Discovery. They proved to be just what I needed as I have never had any more womanly trouble, and they also cured me of the breaking-out on my body. I cannot say enough in praise of Dr. Pierce's medicines since they did so much for me."—Mrs. GEO. FLENNER, 403 E. Jackson St.

When the Chief Executive is in the White House the Regular Police Are on Watch, and When He Goes Abroad Secret Service Men Shadow Him.

It is a fierce light that beats upon the White House—quite as fierce as any that beats upon a throne. Until he is relieved from it a president never realizes the unconscious strain that he has to undergo. The joyousness that comes after he has laid down the burden and the contrast between the life succeeding that in the White House and the life passed in it reveal to him the nature of what he has gone through.

Of course it is pleasant to be treated with consideration by every one; it is human nature for the incumbent to enjoy the respect that is rendered to the office. But there is an isolation for the president that it is impossible to avoid. He is the only person in the government service who has that kind of isolation. Few see him except by special appointment. The office separates him from society. There is no neighborly dropping in; there is a curtain between him and that body of men with whom he was accustomed to associate.

It is not true that that keeps him from knowing what is going on or that it saves him from feeling the shafts of criticism. The suggestion that he hears only the kindly view of what he does from his cabinet and from those who are near to him does not cover the whole ground. He has candid friends, and he reads the newspapers.

From congressmen and from visitors who frequently turn their steps to Washington the president hears the news from all over the country. He sees the newspaper men every few days, and unless he is always using them to give the public his view of pending questions he can learn much from them. If he is open to information at all he can exercise very excellent judgment as to the state of the public pulse.

It is pleasant to dispense the hospitality of the White House, because you know that most of your guests will remember all their lives all the circumstances of their visit. The government is generous with the president in salary and in paying his expenses of living. He can save a substantial sum each year and still not be niggardly in his hospitality.

Three presidents of the United States have been assassinated, and congress in consequence has thought it wise to enjoin upon the chief of the secret service of the treasury department the duty of guarding the president against assault. Three or more experienced men are assigned to that duty, and they attend him wherever he goes.

Of course when he is in the White House the regular District policemen, who watch the approaches, make the presence of the secret service men unnecessary. Whenever the president goes abroad, however, the secret service men are expected to be in his immediate neighborhood—in the vehicle in which he is riding or in another that follows; whenever he makes a railway journey they are in his private car.

These secret service men become very skillful in detecting the presence of persons who are demented and who in their excitement may become dangerous. Of course if a man wished to kill the president and sacrifice his own life for it the secret service precautions might not prevent him from carrying out his purpose, but there is greater danger from demented persons than from deliberate murderers. My own impression is that if there had been as great precaution taken when President McKinley was at the exposition in Buffalo as is taken today that tragedy would not have occurred.

The assassin in that case had his hand in his pocket, where he had concealed a revolver wrapped in a handkerchief. If it had happened today a secret service man would have seized the assassin's hand in his pocket, found the revolver and arrested him long before the man had reached a point where he could carry out his purpose. Although I recognize the necessity of such precautions, I am bound to say that they are often irksome to the president. The secret service men are as considerate as possible and are well trained men, who mind their business, but that constant dogging of the president's steps arouses in him the unconscious feeling of being under surveillance and guard himself rather than of being protected.

An impression has gone abroad that the president may not leave the country. There is no law that prevents his doing so, and there is no provision in the constitution that he would violate in leaving the national jurisdiction. There is a constitutional direction that the vice president shall act for the president in case he is disabled. If he went abroad in such a way as to prevent his directing affairs he might well be held to have disabled himself, and the vice president might act for him in his absence.—William Howard Taft in Youth's Companion.

## IS ASKED TO FORM VIGILANCE CORPS

Mayor Bebout Receives Request  
From Chairman of Board of  
American Defense Society

### ORGANIZATION IS OUTLINED

Classification of All Citizens as Regards  
Their Loyalty is Urged  
by Society

Mayor C. L. Bebout today made public a request received from Richard M. Hurd, Chairman of the Board of Trustees of the American Defense Society, urging citizens here to organize a vigilance corps, for the purpose of aiding the Government in putting an end to German propaganda and enemy activity which has been responsible for fires, ammunition plant explosions, sabotage, food scares and other attempts to damage the morale of the American people.

"Recent events in this country make it plain that the German method of propaganda which has been so effective in Russia and Italy is now being attempted in this country with an alarming degree of success," according to the appeal to Americans now being issued by the American Defense Society. "German propaganda has long been supplied to our troops in the national encampments. The ship-building program is being interfered with by German-inspired strikes. Germans are directing the hoarding of food supplies to an extent that panics have already been prevalent in the leading cities. Newspapers are giving daily reports of fires in ammunition plants and grain depots and the country is now on the verge of an even greater calamity in the shape of a railroad strike of unprecedented extent which threatens to cripple our national industry."

The far-reaching need of the local Vigilance Corps can readily be seen when it is known that in this country, alone there are today several million alien enemies representing Germany, Austria, Bulgaria, Turkey and other countries sympathetic or allied with the Prussian autocracy. Almost without exception these enemies are free to go about as they see fit, and while the Government has done much toward tightening censorship of mails and cables, nevertheless there are numberless channels by which these enemies are in touch with the directing genius of German propaganda in Berlin.

The plan of organization undertaken by the Society and recommended to loyal Americans provides for the enrollment of a small American Vigilance Corps in every city and town which shall classify all residents under the following terms:

1. Loyal.
2. Disloyal.
3. Doubtful.
4. Unknown.

Following the general classification of citizens the Committee is urged to make further designation of the following list:

1. Alien enemy.
2. Pro-German.
3. Anti-Government.

In the letter of instructions to branch organizations the Executive Committee of the American Defense Society gives the following directions:

"At the earliest possible moment when you have made your classification of alien enemies, pro-Germans, and those opposed to the Government in this war, send this list to the Police Department, the local representative of the Department of Justice and to whatever representatives of the army or navy intelligence bureaus there are in your community. Do not let this matter rest, however, with this first classification of the enemies. Too much stress cannot be put on the

## PETITION IS FORWARDED

Urges Passage of Purple Cross Bill  
—Signed by About 500

A petition urging the passage of the Purple Cross bill pending before congress, bearing the signatures of between 400 and 500 Rush county people, was forwarded to Washington today so that it might be presented at the opening of congress Monday. The bill provides for the embalming of dead soldier bodies by a new process so that they may be shipped home for burial.

## SUM OF \$85 DONATED TO ARMENIAN RELIEF

This is Expected to be Increased by  
Monday When Other Churches  
in County Report

### CONTRIBUTE TO MINISTERS

The collection of eighty-five dollars taken for the Armenian-Syrian relief fund yesterday morning at the Thanksgiving service at the First Baptist church was regarded as excellent considering the size of the audience. Churches all over the county also took contributions for this worthy cause and the returns from these have not been received by the Rushville ministerial association which has charge of the raising of the fund.

The amount will not be sent in to headquarters until Monday so that persons who were not at the service yesterday will have an opportunity to donate to the cause. The money may be given to the Rev. D. Ira Lambert, president of the ministerial association or any minister and it will be turned into the fund.

Because of the crying need for this money in Armenia and Syria, the ministers are hoping that within the next few days Rush county's fund will climb higher. No one will be solicited for contributions, but everyone is urged to make a contribution to some minister in the county. The county churches are asked to report to Dr. Lambert as to how much money they have raised and either send the money to the fund in this county or send the contributions direct to headquarters in New York.

## BOY ACCIDENTALLY SHOT BY BROTHER

Vernon Hardwick, 12; Son of Eli  
Hardwick, Will Recover From  
Hunting Accident.

### 60 SHOT PENETRATE LEGS

Vernon Hardwick, age twelve years, son of Mr. and Mrs. Eli Hardwick of Richland township, was accidentally shot yesterday while on a hunting trip by his brother, Dallas Hardwick, age nineteen, but will recover. The full charge of one shotgun shell penetrated both legs below the knee, about sixty small shot entering the calf of his left leg and a few his right leg.

Vernon and Dallas, together with another brother, William, age seventeen, were hunting on Ben Staples farm in Richland township. Dallas let both barrels of the shotgun go at a rabbit and Vernon ran ahead to see if he had killed it. Dallas was in the act of reloading the gun when the plunger caught and one shell was accidentally discharged. Vernon fell over as if he had been killed. His two brothers carried him over a mile before aid was reached. Young Hardwick was then taken to Dr. Kennedy's office in Milroy and the shot removed. The shot drove particles of his underwear and stockings into the wound and aggravated it. Clifford Hardwick, of the Peoples National bank is a brother.

## ONLY FIRST STEP TO CONSERVE COAL

Recommendations of Church Committee Forecasts What Future  
May Hold in Store

### EARLY CLOSING IS POSSIBLE

Fuel Administration Has Ample  
Power to Take Necessary  
Steps to Save Fuel

The statement by a committee representing the official boards of the protestant churches of Rushville urging that the public not call on the churches to open the houses of worship any more than is absolutely necessary, is but the first step in the direction of coal conservation which may be necessary this winter if the shortage becomes acute.

The fuel administration has made it plain from the beginning that if any drastic action is necessary to make the supply sufficient to meet the domestic demand, it will be taken. Already the federal fuel administration has issued an order providing that no electric street signs shall be operated except between the hours of 7:45 p. m. and 11:30 p. m. The order does not restrict in any way the use of electricity for interior lighting or for street lighting by municipalities.

That the situation has been sensed here is disclosed by the fact that early closing of stores which ordinarily remain open after six o'clock has been discussed and that the proprietors in line of business which is open until ten o'clock each night have consulted among themselves regarding the advisability of closing at eight o'clock. A majority of the stores here close at six o'clock during the winter months and not a great number of business houses would be affected should an early closing order be promulgated. Such an order during the winter, if the situation demands it, is not without pale of probability, because the fuel administration has ample power from the federal law creating it to take whatever steps that are necessary to compel early closing as a coal conservation measure.

Oil lamps in place of gas and electricity, wood in place of coal for heating and cooking, early closing of stores, the closing off of extra rooms in homes, and the abandonment of the brilliant lighting effects heretofore used in store windows are among the measures already being taken in Lebanon and other Boone county cities and towns under direction of C. F. S. Neal, county Fuel Director and the County Council of Defense, working with the Lebanon Business Men's association and other organizations.

At Lebanon the business men have put a committee on the job of enforcing the conservation plans of the Fuel Administration, and a police alarm system is to be put in to make things safe when darkness falls. Lebanon business men have pledged themselves to help save fuel. Fuel Director Neal, in furtherance of the campaign to substitute wood for coal, has cut down the Carolina poplars in front of his several rental properties. He says the coal shortage offers a real opportunity to rid all Indiana communities of the Carolina poplar pest while at the same time meeting the fuel crisis effectively.

At Columbus, Ind., and in Bartholomew county, M. O. Reeves, the fuel director, is getting the cooperation of business men for a general movement to close the stores at 6 p. m. to save fuel. It has been suggested that the saloon men be asked to close their places at 8 o'clock in the evening.

## FINDS FOR DEFENSE ON FIRST BALLOT

Jury Returns Verdict For Lafayette  
Conwell of Connersville Who Was  
Sued by Saloon Keeper.

### MONEY ALLEGED DUE ON LOAN

Trial of Carl Vandiver on Charge of  
Involuntary Manslaughter Set  
For Today Postponed.

On the first ballot a jury in the circuit court today found for the defendant in the case of Thompson F. Thomas, an Indianapolis saloon keeper and former resident of Connersville against Lafayette Conwell, an architect of Connersville, for money had and received. The case came here on change of venue.

The case of the state against Carl Vandiver, accused in a grand jury indictment with involuntary manslaughter, did not come to trial today as planned, it having been discontinued on account of the illness of Jack Ross of Andersonville, who was employed to assist the prosecution. The indictment was the outgrowth of an accident last June when an automobile driven by Vandiver ran into Carl Swinford's buggy and killed his baby.

The jury got rid of the case tried this morning in very short order. The hearing was concluded just before the noon intermission and after dinner the jury took one ballot, all voting for the defendant.

Thomas, who was formerly a furniture dealer of Connersville and later in saloon business before moving to Indianapolis, sued Conwell for money he alleged he had advanced to Conwell as loans. Conwell testified Thomas had never given him more than \$5 at a time. Conwell also testified to an incident when he went to Indianapolis to see the automobile races. He said he visited Thomas' place and went to bed above the saloon. By the time he "came to," he said the races were over and most of his money was gone.

The jury hearing the case was composed of Ben F. McFarlan, J. J. Morrison, Frank Megee, C. W. Hinkle, Otis Miller, Charles Davis, J. W. Anderson, W. A. Caldwell, Fred Cameron, J. A. Jones, Alonzo Darymple and John F. Mapes.

A change of venue was granted today in the case of R. Herschel Manufacturing company against James Irvine, Sr., and James Irvine, Jr., on an account for \$250.

The claim of William E. Wallace as trustee of the First Presbyterian church against R. G. Budd as administrator of Jesse T. Winship's estate was dismissed and the costs paid.

Judgment was rendered against Harry and Willard Colter today for \$79.55 and costs in favor of J. W. Anderson as trustee of Thomas E. Bortoff in bankruptcy.

## REVENUE STAMPS ARRIVE

May be Bought at Postoffice—Law  
Effective Tomorrow

The supply of revenue stamps, which will be on sale starting tomorrow at the banks and postoffice, has been received at the postoffice. The only way in which the new revenue stamp law effects the postoffice is in the mailing of parcel post packages. On these there is a one cent revenue stamp due for every twenty-five cents on postage or any amount between twenty-five and fifty, fifty and seventy-five and so forth. A number of banking documents will be affected and require revenue stamps of different values.

## HAS SOMETHING TO BE THANKFUL FOR

Derb Green Loses \$600 by Fire  
Thanksgiving Day But Chemical  
Truck Saves Barn

### MILK WAGON IS ALL HE SAVED

Though Derby Green suffered a loss of \$600 from fire Thanksgiving day when the milk house on his farm just east of Rushville on the Fort Wayne road burned, he had something to be thankful for. His gratitude was expressed today for the work done by the chemical truck recently purchased by the city because that truck alone prevented his barn from burning and thus causing a further loss of at least \$4,000.

The milk house caught fire yesterday afternoon about one o'clock, probably from one of the stoves in the house, both of which were burning. A man employed on the farm was returning from dinner when he saw smoke curling from the milk house and when he reached the place, it was in flames and could not be saved. Five hundred milk bottles, a bottling machine, a bottle washer and an ice box valued at \$100 were destroyed. A milk wagon was the only thing saved.

The chemical truck arrived soon after the fire was discovered and put out the fire on the roof of the barn by throwing chemicals seventy feet in the air. There were 40 tons of hay in the barn which had caught fire.

## RAINBOW DIVISION IS NOW IN FRANCE

National Guardsmen Representing  
Every State in Union Soon Be-  
come Acclimated

### THEY ARRIVED WEEKS AGO

(By United Press.)  
American Army Field Headquarters, Nov. 30.—The American National Guard unit representing every state in the union is now in France. They arrived weeks ago, but not until today was the fact permitted to be announced.

The new Sammies received a hearty welcome by the French. The occasion of the arrival will be a memorable one. In twenty-four hours the members of the guard were at home and on a most friendly relation with the Tommies. The First National Guardsmen after arriving have made enormous progress in their training. General Pershing has already made an inspection of the Guard.

This unit is known as the Rainbow Division and is commanded by General Mann.

## MAKING A SECOND BELGIUM OF ITALY

Austro-Germans Place Women and  
Children in First Line Trenches  
as Shields

### LEVY ENORMOUS WAR TAXES

New Battle Ground Develops in  
Cambrai Region, But Germans  
Make no Progress

(By United Press.)  
Washington, Nov. 30.—Austro-German troops are making a second Belgium out of invaded Italy, Rome cables declared today. Near Verson the Germans placed women and children in their first line trenches as shields against the Italian fire. Hundreds of these innocent victims were sacrificed, said the messages reaching here. In one region the Germans have levied the same exorbitant war taxes as in northern France and Belgium. Labor is being conscripted.

While Austro-German agents spread stories of benevolent treatment to the Italian villages, Austro-German soldiers are commandeering every movable object of value in Italy.

Along the Piave river front the Italian soldiers report that the terrified screams of women in Austro-German hands make the nights hideous.

By WILLIAM PHILIP STUMS  
(U. P. Staff Correspondent.)

With the British Armies in France, Nov. 30.—A new battle ground in the Cambrai region developed today. On the extreme southern flank the Germans early this morning opened a violent attack.

They have apparently been unable to make headway. Prisoners taken declare they have been practically without sleep since Nov. 20 and their haggard appearance and exhaustion bear out this statement.

German officers, they declare, are fearful the British wedge at Bourlon will force a withdrawal south of the Farte.

Aviators reported evidences that the enemy is destroying Cambrai and other nearby towns.

British troops have made a slight advance west of Bourlon wood, one of the important defenses of Cambrai. First admission that General Byng's artillery is dropping shells in the town of Cambrai was contained in official dispatches from Berlin yesterday. Observations previously made by allied aviators have led to the belief that the railroad center has been evacuated by the civilian population and is no longer of value to the Germans as a base.

That the Italians defending the plains of northern Italy are more than holding their own is indicated by the official communication from Berlin, which recounts the repulse of Italian attacks against positions west of the Brenta and west of the Piave.

## 45 ASKED TO FORM A VIGILANCE CORPS

Continued From Page 1

Importance of having your own Vigilance Corps take steps to watch alien enemies, pro-Germans and those opposed to the Government. Only by such co-operation will you be able to give effective aid to the Government. Take every means you can to let the people of your city know the names of our enemies.

"Unofficial announcement has already been made at Washington that the Government is about to register the alien enemies in America. Your Committee already having acted along such lines will naturally be in a position greatly to aid the Government Census when such a census is taken. No doubt many attempts will be made to evade the official Government Census and information on the enemies in your community will therefore be of greatest value.

"You are enjoined to watch the speech, associations and activities of every man whom you may suspect of disloyalty and to send in the immediate report. For further information and instructions, regarding the work of the Vigilance Corps of the American Defense Society address, National Headquarters, 44 East 3rd Street, New York City.

John D. Jones, age seventy-five years, brother-in-law of Mr. and Mrs. George Young of this city, is dead at his home in Clarinda, Iowa, according to word received here. He married Margaret Hinchman of this county, a sister of Mrs. Young's and was well known here where he had visited. Mr. Jones was a veteran of the civil war.

### Stronger Men Take the Lead

They Have Nerves of Iron and Real Red Fighting Blood

Vital force is the material from which leaders in all walks of life are made. It is well worth getting and holding.

The health and nerve of the athlete is what Nature intended every man and woman to have.

The blood of an athlete is pure and red, a strong heart pumps and drives it through his body. No wonder that every inch of his system is filled with energy and health, his nerves like iron, spirits high, hard tasks a pleasure and life one song of joy.

A leading Doctor says, "Everyone should feel this way. That if you are not red blooded, are nervous, all run down and on your last legs, for you to build up your blood and nerves with exercise, fresh air, nourishing food and Nature's great prescription Phosphated Iron a real blood and nerve builder."

Then you will be there with vim and push to easily do the work that you now do on your nerves alone.

He also says: "Phosphated Iron feeds the blood cells with iron and Nerve force, and that leading specialists are now using it successfully all over the country, that it has sprung into almost instant popularity with the better class of doctors as one of the few remedies they can depend on to produce results."

Special Notice—To insure physicians and their patients getting the genuine Phosphated Iron we put up in capsules only, so do not allow dealers to substitute any pills or tablets; insist on the genuine in capsules only. PITMAN & WILSON and leading Druggists Everywhere, Rushville, Ind. (Adv.)

### KENTUCKY MAN AT HEAD OF STATE GUARD

Gen Rodger Williams Assumes Command of Indiana Troops at Camp Shelby Today.

KEEN DISAPPOINTMENT FELT

Hattiesburg, Miss., Nov. 30.—General Rodgers D. Williams of Kentucky, has received orders from the war department to assume command of the Indiana brigade at Camp Shelby and this morning at 8 o'clock he became the commanding officer of the Indiana troops.

There is still a chance, however, for either Harry B. Smith, adjutant-general of Indiana, or Colonel Thomas B. Coulter, commanding officer of the 152d infantry. Although the assignment of General Williams is permanent, the war department could appoint General Smith or promote Colonel Coulter and assign General Williams elsewhere. This is only a possibility, not a probability.

The disappointment is keen that an Indiana man is not at the head of the Indiana troops.

### RUSSIAN FACTIONS REACH AGREEMENT

Workmen's and Soldiers' Committee and Others Hold Session in Petrograd.

UNITED MEETING REPORTED

London, Nov. 30.—A Russian communication received here by wireless announces a union between the all-Russian central executive committee of the council of workmen's and soldiers' delegates with the executive committee elected by the all-Russian peasants' congress.

At a united meeting of these bodies and the Petrograd council of workmen's and soldiers' delegates an unanimous agreement was reached as to laws concerning land and peace and to the law vesting control in the hands of the workmen.

The new government will consist of a ministry representing all political factions which will be responsible to a parliament composed of 108 members of the workmen and soldiers and an equal number of the peasant congress and 100 delegates from the trade unions.

Age Limit of Airmen.  
Brigadier General George O. Squier, chief of the signal corps, U. S. A., in his recent call for volunteers to serve in the great air fleet that is building stated, "The preferable age for all applicants is from twenty-five to thirty-five." Wanting to know the age limits fixed for men serving in the British and French flying corps, the New York World wired its correspondent in London. He answered:

The minimum age in the British flying corps is eighteen. The average age is about twenty-three. There is no maximum age, but in practice a man more than thirty years old is not taken in the flying corps unless he is exceptionally qualified for that service. Many officers are still in the corps who joined when it was formed in 1912, and it contains civil and professional aviators over thirty who joined after the war began. But the average age of the officers now actually flying is twenty-three.

The age limit of the French aviation service is from eighteen to thirty.

### ASKS IF CITY HAS AN EXPLOSIVES STATUTE

Director of Bureau of Mines Wants to Authorize Licensing Agent if There is One

COUNTY ALREADY HAS AGENT

Mayor C. L. Behout is in receipt of a letter from V. H. Manning, director of the bureau of mines of the United States department of the interior, which has in charge the enforcement of the new federal law regulating the use of explosives, asking him to advise the bureau at once whether Rushville has a city ordinance to require a license to purchase, manufacture, sell or use explosives. This information is desired so that the bureau, according to the letter, may designate the office authorizing to issue licenses under the federal statute.

The city has no such ordinance and therefore no such officer and it is not regarded as necessary to reply to the communication since the clerk of the circuit court, George Moore, Jr., has been designated as the licensing officer for the county under the explosives act. The letter is a form communication and probably is applicable in larger cities.

## HOOISIER KITCHEN CABINETS

Hinged Door  
"Hoosier Wonder," Advertised  
in leading Magazines

Although the prices of nearly everything has gone up since the war, it is a remarkable fact that the price of the famous Hoosier Beauty remains exactly the same.

It is the only kitchen cabinet we know of on the market today that has not been advanced \$2.00 or \$3.00.

The reason for this is that there are more Hoosiers made than any other five makes combined. Hoosier production is larger and buying facilities greater. With the exception of the slight rise in price of one or two of the lower priced cabinets, all prices are exactly the same as usual.

That is why it is hard for you to get Hoosier Cabinets—last spring and summer hundreds of women waited months to get the popular Hoosier models.

Whether you intend to buy now or later, come and see the labor saving cabinets.

SPECIAL LOW PRICES —\$21, \$26, \$31, and \$35.

They are sure to be higher.

Rushville, Like Every City and Town in the Union, Receives It

People with kidney ills want to be cured. When one suffers the tortures of an aching back, relief is eagerly sought for. There are many remedies today that relieve, but do not cure. Doan's Kidney Pills have brought lasting results to thousands. Here is Rushville evidence of their merit.

Frank McFarland, 830 W. 10th St., says: "My kidneys began to get weak and in a short time I was so bad off I could hardly get about. My back was in terrible shape. It ached so, especially at night, I could hardly sleep. Mornings, my back was so stiff when I bent over I could hardly straighten up again. The kidney secretions were too frequent in passage and highly colored. Another of the family had used Doan's Kidney Pills with such good success I thought I would try them, so I got a box at Johnson's Drug Store. They helped me right away and I kept on using them until I was cured."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. McFarland had. Foster-Milburn Co., Mfgs., Buffalo, N. Y. —(Adv.)

### Soldiers Do Nothing By Halves

The American soldier does not believe in doing things by halves. He uses the full unit in giving expression to his practical patriotism. He not only stands willing to support the flag in its glorious onward march to world liberty and freedom, laying down his life if necessary, but he stands willing to aid the government by lending liberally of his money. What he did in connection with the second Liberty Loan should serve as an inspiration to the entire nation.

Subscriptions to the second Liberty Loan from the military establishment of the United States reached the gigantic total of \$89,903,300. The American army had a per capita subscription of \$76.86, representing an average subscription of \$113.25 and nearly 70 per cent of the army subscribed.

The American expeditionary forces in France subscribed \$3,661,850. Troops in Hawaii rolled up \$1,269,150; those in Panama, \$1,113,600 and those in the Philippines and China \$358,550.

The thirty-one cantonment camps in the nation subscribed for \$43,080,500 of the war bonds. The sixteen National Army camps subscribed for \$23,740,900, the fifteen National Guard camps taking \$19,339,600 of the securities. Twenty-five of the thirty-one cantonment camps went over the \$1,000,000 mark and eleven of them subscribed individually for more than \$1,500,000. The National Army camps had a per capita subscription of \$58.36. Camp Meade, at Admiral, Maryland, led the National Army with a per capita subscription of \$89.36. Camp Cody, at Deming, New Mexico, led the National Guard with a per capita subscription of \$96.56.

The North Pacific Coast Artillery district, with headquarters at Seattle, Washington, reported a total subscription of \$454,650 from 4,063 subscribers of a total strength of 4,718 men.

In the latter part of the bond campaign, officers and enlisted men were detailed wherever practicable, to co-operate with local Liberty Loan organizations. A typical sample of the results was shown in the telegraphic report from Camp Lee, the National Army cantonment at Petersburg, Virginia, to the effect that through the efforts of officers and enlisted men of that camp, bond subscriptions amounting to \$14,532,450 were obtained from persons residing outside of Camp Lee.

This amazing showing by the men in arms should bring home with compelling force a lesson in practical patriotism to all persons who are not called to the army. The next Liberty Loan will determine the extent to which this lesson carries.

### Germany's Losses

With the declaration of Brazil of a state of war between that country and Germany, the latter can now count eighteen enemy nations arrayed against her.

Germany's losses in men and money, while they must be enormous, are in reality the least of the

disasters that have befallen her. The one great disaster that that misguided country has brought upon herself, and which will have most far-reaching effect, is the loss of her standing with the nations of the world. With the exception of the countries leagued with her in this unholy war, Germany is an outcast among the nations of the earth.

Germany is not feeling the blighting effects of this ostracism now as she will feel it in the years to come. She claims that her policy of frightfulness is a necessary measure of self-defense, yet this same policy has alienated numbers of nations that but for that inhuman course would today be, if not her avowed friends, at least strictly neutral.

Peace will come after a while, and in the reckoning Germany's course will be laid bare before a just and discriminating world. We say "just and discriminating," because we believe, despite Germany's frightful defection from national humanity and honor, the large majority of the peoples of the earth are at heart humane and honorable. And the latent principles of humanity and justice that underlie and form the bed-rock foundations of all civilized nations, have revolted and will continue to revolt against the savagery displayed by that would-be fount of "kultur."

This antipathy will take the form of a prejudice against not only Germany as a nation, but against the German blood. Not all the peoples of the earth have the finely discriminating judgment of President Wilson, and not all of them will be able to separate the acts of the German government from the impulses of the German people.

It is a common thing to hear, even in charity-loving America, references to "German brutality" and "German savagery." It is of no avail to tell the people that this brutality and savagery is the result of a "system" and that in reality the German people as whole do not countenance it. Human nature is prone to believe that actions speak louder than words, and Germany's actions will form the complainants' evidence when Germany comes to trial before the people of the earth.

The world should reserve its criticism of Kerensky and the Russian republic. Democracies are not born in a day, neither is the character of a people changed over night. While the pains of a new birth have temporarily impaired her fighting power, given a little time to adjust herself to the new conditions, Russia will yet give a good account of herself. Especially should we of the United States withhold censure, permitting, as we do, obstructionists and trouble makers to stalk unmolested throughout the land. We might criticize with a better grace if we would fill some prison cells for whom they have long been waiting.

The German bed will be a bed of thorns for generations to come.

### The War Garden—Coffee Bean

THE COFFEE BEAN IS A DISTANT RELATIVE OF THE LIMA, BOSTON, STRING, BAKED AND OTHER BEANS. HOW FAR DISTANT NOBODY REALLY KNOWS, BUT IT MUST BE AT LEAST 250 MILES.

A TURKISH RULER OF THE 15TH CENTURY WAS INVITED TO A COFFEE CLOTH BY SEVERAL FRIENDS, AND AFTER DRINKING A CUPFUL, HE SAID THAT THE COFFEE WAS IN SULTAN. HE CLAIMED IT WAS GOOD AND HE PROHIBITED ITS USE.

EVERY BODY SHOULD KNOW COFFEE IS A BEAN. IT GROWS IN THEIR WAR GARDENS.

A TRADER BY THE NAME OF DEMI TASSE TOOK SOME SMALL COFFEE PLANTS TO BRAZIL AND STARTED THEM GROWING THERE. HE SAID SEVERAL COFFEE HOUSES GROW ON THE BARK OF THE COFFEE PLANT.

THE COFFEE NUT IS ONE WHO IS CRAZY FOR COFFEE.

THE COFFEE BUG IS THE MOST NOISY HIGH COFFEE.

# SOCIETY

A pretty Thanksgiving party was given yesterday afternoon by Mrs. Claude Cameron for the members of the Grand Club at their regular meeting. Every member of the club was present and in addition, Mrs. Alice Smith of Denver, Col., Mrs. Swope of Kansas and Miss Edith Wilk. During the afternoon the three tables of guests played Bridge. The table for the service of the supper was prettily laid with a bright bouquet of poppies in the center and bunches of the brightly colored flags of the allies at each end of the table. The club will meet again in two weeks.

The marriage of Miss Nellie Jackson of Milroy and Frank Cameron of south of this city has been announced. The wedding took place in Covington, Ky., October 3. Mr. Cameron is the son of Mr. and Mrs. Fred Cameron and is a graduate of the local high school. He also attended school at Des Moines, Iowa, for a year. He expects to leave for army service with the next increment.

ment. Mr. and Mrs. Cameron will make their home with his parents for the present.

## KEEP LOOKING YOUNG

It's Easy—If You Know Dr. Edwards' Olive Tablets

The secret of keeping young is to feel young—to do this you must watch your liver and bowels—there's no need of having a sallow complexion—dark rings under your eyes—pimples—a bilious look in your face—dull eyes with no sparkle. Your doctor will tell you ninety per cent of all sickness comes from inactive bowels and liver. Dr. Edwards, a well-known physician in Ohio, perfected a vegetable compound mixed with olive oil to act on the liver and bowels, which he gave to his patients for years. Dr. Edwards' Olive Tablets, the substitute for calomel, are gentle in their action yet always effective. They bring about that exuberance of spirit, that natural buoyancy which should be enjoyed by everyone, by toning up the liver and clearing the system of impurities. You will know Dr. Edwards' Olive Tablets by their olive color. 10c and 25c per box. All druggists.

Mr. and Mrs. Merrill Ball entertained at dinner yesterday Mr. and Mrs. Chase Cross of near the city.

The Misses Elvorne and Elizabeth Gronier entertained a few girls with

a pitch-in dinner yesterday at their home in North Main street. The guests were the Misses Zora Carney, Ruth Spivey and Marjory and Harriet Smith.

## NATURA

IS THE MEDICINE THEY ALL PRAISE  
They can't help praising it, as it produces the results desired.  
*Natura Treats the Cause—It's Nature's Way.*

Mrs. Hannah M. Smith, 653 E. South St., Frankfort, Ind., is nearer free from rheumatism than she has been for thirty years since she has been using NATURA.

Gentlemen—I have been afflicted with running catarrh for the past forty years. I would take cold easily and I had a cold most of the time. I also had a severe case of stomach trouble and was very nervous; my kidneys were also affected badly. I have been a sufferer from rheumatism for the past thirty years. NATURA was recommended to me as a dependable remedy for catarrh and I began to use it with the best of results. I now have been using it for about two months; my stomach is in fine shape; my nerves are stronger; I am sleeping and resting much better and I am nearer free from rheumatism than I have been in the thirty years. I have purchased six more bottles.

NATURA can be obtained through all reliable druggists, but always found at the following progressive dealers in and around Rushville, Ind.: F. E. Wolcott, Hargrove & Mullin, Pitman & Wilson, Rushville, Ind.; Mrs. Stella Davis, Arlington, Ind.; Handy's Drug Store, Mays, Ind.; Grace Drug Store, Milroy, Ind.

Manufactured by  
THE NATURA DRUG CO., Indianapolis, Indiana

### WORTH WHILE.

It is easy enough to be pleasant  
When life flows by like a song.  
But the man worth while is one  
Who will smile  
When everything goes wrong.  
For the test of the heart is trouble,  
And it always comes with the  
years.  
And the smile that is worth the  
praises of earth  
Is the smile that shines through  
tears.

It is easy enough to be prudent  
When nothing tempts you to  
stray.  
When without or within no voice of  
sin  
Is tugging your soul away.  
But it's only a negative virtue  
Until it is tried by fire,  
And the life that is worth the hon-  
or of earth  
Is the one that resists desire.

By the cynic, the sad, the fallen,  
Who had no strength for the  
strife,  
The world's highway is cumbered  
today.  
They make up the item of life.  
But the virtue that conquers pas-  
sion  
And the sorrow that hides the  
smile—  
It is these that are worth the hom-  
age of earth,  
For we find them but once in  
awhile.  
—Ella Wheeler Wilcox.

### Uric Acid Poisoning!

The most eminent physicians recognize that uric acid stored up in the system is the cause of rheumatism, that this uric acid poison is present in the joints, muscles, or nerves. By experimenting and analysis at the Invalids' Hotel and Surgical Institute in Buffalo, N. Y., Dr. Pierce discovered a combination of native remedies that he called Anuric—which drives out the uric acid from the system, and in this way the pain, swelling and inflammation subside. If you are a sufferer from rheumatism, backache, pains here or there, you can obtain Anuric at any drug store and get relief from the pain and ills brought about by uric acid; or send Dr. Pierce 10c for trial pkg. Anuric which you will find many times more potent than lithia and eliminates uric acid almost as hot water melts sugar. A short trial will convince you.

Anuric is a regular insurance and life-saver for all big meat eaters and those who deposit lime-salts in their joints.

OLD-TIME REMEDY MAKES

BLOOD PURE.

Elkhart, Ind.—"When I was a girl just coming into womanhood I suffered greatly. I became weak and nervous, in fact, all run-down in health. In addition to this I had a breaking-out all over my body. At times it would act like eczema and then again it seemed that it was scrofula. I could not get anything that did me any good until my mother began giving me Dr. Pierce's Favorite Prescription and his Golden Medical Discovery. They proved to be just what I needed as I have never had any more womanly trouble, and they also cured me of the breaking-out on my body. I cannot say enough in praise of Dr. Pierce's medicines since they did so much for me."—Mrs. Geo. FLENNER, 403 E. Jackson St.

## BEING PRESIDENT.

The Strain and Isolation That Come With the Office.

UNDER GUARD ALL THE TIME.

When the Chief Executive is in the White House the Regular Police Are on Watch, and When He Goes Abroad Secret Service Men Shadow Him.

It is a fierce light that beats upon the White House—quite as fierce as any that beats upon a throne. Until he is relieved from it a president never realizes the unconscious strain that he has to undergo. The joyousness that comes after he has laid down the burden and the contrast between the life succeeding that in the White House and the life passed in it reveal to him the nature of what he has gone through.

Of course it is pleasant to be treated with consideration by every one; it is human nature for the incumbent to enjoy the respect that is rendered to the office. But there is an isolation for the president that it is impossible to avoid. He is the only person in the government service who has that kind of isolation. Few see him except by special appointment. The office separates him from society. There is no neighborly dropping in; there is a curtain between him and that body of men with whom he was accustomed to associate.

It is not true that that keeps him from knowing what is going on or that it saves him from feeling the shafts of criticism. The suggestion that he hears only the kindly view of what he does from his cabinet and from those who are near to him does not cover the whole ground. He has candid friends, and he reads the newspapers.

From congressmen and from visitors who frequently turn their steps to Washington the president hears the news from all over the country. He sees the newspaper men every few days, and unless he is always using them to give the public his view of pending questions he can learn much from them. If he is open to information at all he can exercise very excellent judgment as to the state of the public pulse.

It is pleasant to dispense the hospitality of the White House, because you know that most of your guests will remember all their lives all the circumstances of their visit. The government is generous with the president in salary and in paying his expenses of living. He can save a substantial sum each year and still not be niggardly in his hospitality.

Three presidents of the United States have been assassinated, and congress in consequence has thought it wise to entrust upon the chief of the secret service of the treasury department the duty of guarding the president against assault. Three or more experienced men are assigned to that duty, and they attend him wherever he goes.

Of course when he is in the White House the regular district policemen, who watch the approaches, make the presence of the secret service men unnecessary. Whenever the president goes abroad, however, the secret service men are expected to be in his immediate neighborhood—in the vehicle in which he is riding or in another that follows; whenever he makes a railway journey they are in his private car.

These secret service men become very skillful in detecting the presence of persons who are demented and who in their excitement may become dangerous. Of course if a man wished to kill the president and sacrifice his own life for it the secret service precautions might not prevent him from carrying out his purpose, but there is greater danger from demented persons than from deliberate murderers. My own impression is that if there had been as great precaution taken when President McKinley was at the exposition in Buffalo as is taken today that tragedy would not have occurred.

The assassin in that case had his hand in his pocket, where he had concealed a revolver wrapped in a handkerchief. If it had happened today the secret service man would have seized the assassin's hand in his pocket, found the revolver and arrested him long before the man had reached a point where he could carry out his purpose. Although I recognize the necessity of such precautions, I am bound to say that they are often irksome to the president. The secret service men are as considerate as possible and are well trained men, who mind their business, but that constant dogging of the president's steps arouses in him the unconscious feeling of being under surveillance and guard himself rather than of being protected.

An impression has gone abroad that the president may not leave the country. There is no law that prevents his doing so, and there is no provision in the constitution that he would violate in leaving the national jurisdiction. There is a constitutional direction that the vice president shall act for the president in case he is disabled. If he went abroad in such a way as to prevent his directing affairs he might well be held to have disabled himself, and the vice president might act for him in his absence.—William Howard Taft in Youth's Companion.

## RED CROSS PLANS DRIVE BENEFIT RECITAL WEDNESDAY NIGHT

County Expects Contest With Warrick Which Has Record

Plans are moving forward for the big Red Cross drive for members which is to occupy the week preceding Christmas. The definite committee in charge of the work will be appointed at a meeting of the director's to be held next week, but in the meantime plans for its success are being laid. A rivalry is expected between the counties of Rush and Warrick, the two counties in the state having the greatest percent of their population belonging to the society. Warrick county has said they intend to gain more members in proportion to their population than Rush county.

### ADDITIONAL SOCIETY

(Continued from Page 6.)  
 A fresh basket of pink and white sweetpeas embellished the table yesterday, when Mr. and Mrs. Grant Thomas entertained with a three course dinner at noon and a six o'clock dinner in the evening at their pretty country home near Milroy. An elegant turkey dinner was served and the chosen color scheme of pink and white predominated in all of the appointments. In the afternoon, the guests spent delightful hours over Rook. The guests enjoying the day were Mr. and Mrs. Dora Jackson and son Lawrence, Dr. and Mrs. John Frances of Milroy, Miss Leah Oneal of this city and Merle Thomas.

The home of Mrs. Rebecca Hinchman in North Main street was the scene for the happy reunion yesterday, when Mrs. Hinchman's nieces and nephews gave a pitch-in dinner. There were about 25 in the pleasant company which enjoyed the elaborate turkey dinner at noon. The table was appropriately decorated for the service of the dinner with Thanksgiving decorations.

Mrs. Boone Gilson entertained with a family dinner yesterday at her home near the city when her guests were Mr. and Mrs. C. B. Gilson of Anderson and Mr. and Mrs. Herbert Gilson and family of this city. Mr. and Mrs. Gilson of this city accompanied Mr. and Mrs. C. B. Gilson to their home in Anderson and remain for a visit of several days.

The Misses Marcella and Kathleen Coyne, Emeline and Sylvia Walters were among those from this city who attended the dance in Connersville last evening.

The Misses Louise Hogsett, Helen and Frances Dugan and Aliene Green were among the guests at the Phi Delta Kappa dance in Connersville last evening.

Miss Donnan's English class will meet with Mrs. B. F. Miller tomorrow afternoon.

Mrs. A. G. Reeves who has been at the Dr. Sexton hospital, for several weeks following an operation, has returned to her home in East Sixth street.

Red Cross Event Which Has Been Unavoidably Postponed Twice Before, to be Held

ROSEMARY PFAFF WILL SING

The Rosemary Pfaff Red Cross benefit recital which has been twice unavoidably postponed will be given in the Main street Christian church on Wednesday evening, December 5 at 8 o'clock. Miss Pfaff was pronounced an artist by a committee from this city which heard the program which she is to give here, rehearsed in Indianapolis recently. She is a musical wonder with a most attractive personality.

Several readings will be given by Mark Pfaff, father of the singer. The tickets, which were purchased when the concert was first to be given here are good and those wishing to purchase one may do so from a number of persons appointed in the different churches in the city. The proceeds will go to Red Cross.

## MEETINGS ARE CONDENSED

Five Instead of Seven to be Held "Win-My-Chum" Week

Because of the coal situation the seven meetings planned by the Epworth League of the Methodist church for the observance of "Win-My-Chum" week have been condensed into five meetings which will be held on Sunday, Tuesday, Thursday, Friday and Sunday of next week. Aside from the regular church services, the only meetings will be those on Tuesday and Friday evenings, the Thursday night meeting taking the place of prayer meeting. A splendid musical program will be given on each evening and excellent speakers will appear at the different meetings.

## EPIDEMIC IS WIPED OUT

Visiting Nurse Completing Work of Fumigating The Homes

The visiting nurse is completing her work of fumigating the homes where reports have been returned negative on a former diphtheria case. It is thought that the epidemic is practically wiped out, by the authorities who have taken every care in preventing a spread of the disease. The rules have been enforced that signs have been put up wherever a case of the disease existed and that they could not be removed except by the visiting nurse who received her order from the board of health.

## SLICK PAVEMENT CAUSE

Automobiles Bump Into Each Other in Business District.

The slick pavement in Second street directly west of Main prevented a serious accident yesterday afternoon at about four o'clock when two machines collided. The front of the two machines bumped directly into one another with such force that one of them slid across the pavement into the curb. The Ford stopped. The drivers were unknown, but neither of them was injured or the machines damaged.

## ORLANDO COOPER IS DEAD

Father of Mrs. Walter Pearce Expires at Newcastle.

Orlando R. Cooper, age sixty-nine years, father of Mrs. Walter D. Pearce of this city, is dead at his home in Newcastle, following a long illness of a complicated character which has confined him to his home most of the time since last spring. Mr. Cooper's father, William D. Cooper, served as commissioner of Henry county and was well known in this county as a stock buyer. Mr. Cooper was married three times and is survived by the widow and eight children in addition to Mrs. Pearce. The funeral will be held at the home Saturday afternoon at two o'clock.
